Our objective through this publication is to inspire associations, executives and congress planners. The France Meeting and Convention Board wants to reveal a global destination that is highly sought and is at the service of all associations. To properly execute this vision, we work with leading French congress cities that embody the strong dynamism of France in the meetings industry. Convention Bureaus provide everything associations need to set up or run their events, from human resources to meetings facilities as well as assistance and support.

France is a very attractive destination for your delegates. Cities respond to new trends with Convention Centres offering a wide spectrum of facilities. But what your colleagues will remember most of all is whether the city was a good fit for your specific objectives. The reinforcement of the country's many knowledge hubs is testament to France's commitment to research and shows a true sense of innovation all around.

This supplement is the easiest way to source your next destination in France. We look at all the elements you need to consider; facilities, training, networking, accessibility, so that you can make an informed, fact-based decision.

We are looking forward to meeting you in France.

Best regards.

# ATOUT FRANCE, FRANCE TOURISM DEVELOPMENT AGENCY

Atout France, the French government's sole operator in terms of tourism development, is entrusted with contributing to the reinforcement of the attractiveness of Destination France and of the competitiveness of its companies and related sectors. Thanks to its 33 offices across the world and a close collaboration with the Embassies, the Agency boasts an in-depth knowledge of the different tourist markets and their various distributors.

## ATOUT FRANCE MISSIONS

During the Interministerial Tourism Committee of 19th January, the Prime Minister went on to reiterate the objectives set by the Government (100 million visitors to France in 2020, revenue of 50 billion euros), and underpinned the role of Atout France in its missions:

- ▶ Renew the offer and monitor its quality through studies and surveys, as well as by financing structural tourism projects across the various territories;
- ▶ Encourage the development and the promotion of destination brands (and that of individual companies) on an international level.

## FRANCE MEETING AND CONVENTION BOARD, A SUPPORT TO ASSOCIATIONS

The France Meetings and Convention Board relies on a network of over 100 professionals to provide international event organisers and association professionals with the best conditions for a successful event. Thanks to its expertise it provides tools on demand to help them making their conference a truly memorable experience.

## PROMOTIONAL OPERATIONS

We meet you during the MICE industry event abroad, which we are involved in. More than 100 promotional operations are arranged every year across the globe, targeting international MICE and association professionals.

## RESOURCES TO BE INSPIRED

- ▶ A powerful media tool, France.fr, available in 16 languages across 31 versions, with which browsers from all over the world can explore the art de vivre of France's varied destinations.
- ▶ A website dedicated to associations and professional event planners.

# BE INSPIRED, BE IN FRANCE

## A WELCOMING CONGRESS DESTINATION

France is the world's leading destination with 88 to 89 million visitors. Its popularity results from a successful combination of factors. An easily accessible destination with 11 international airports and 1,242 miles of high-speed railway tracks, and also an effortless destination with dedicated "welcome packs" for professional visitors. But what makes France so special is its distinct Art de Vivre, its rich cultural Heritage, its unique and diverse landscapes and its delectable gastronomy. France provides visitors with an unforgettable experience and add to the quality of your congress.

## FRANCE RENEWS ITS CONGRESS OFFER

Thanks to its network of talented and service-focused event & congress industry professionals, France has a proven track record of hosting successful events. Determined to continue to offer improving services and support to international event & congress organisers, the destination doesn't take such notoriety for granted and keeps working on its structure in order to renew

and adapt its offer to international standards. Large-scale renovation works and new venues are designed to meet expectations and new trends.

## KEY MESURES

France, has begun a process of improving how it welcomes foreign visitors. Key measures are taken to work on quality, simplicity, security and attractiveness and keep France one of the best MICE destinations: visas within 48 hours, shops open late all week long, multilingual signposting at airports and train stations, priority access for Congress delegates... Security has also been stepped up in tourist areas and convention centres. The logistical success of COP21 and UEFA Euro 2016 was largely down to this process. Successful events like these strengthen France's bids to host major events and business conferences.

**BE**  
INSPIRED, **BE** IN FRANCE.

# BE INSPIRED BY FRENCH DYNAMISM

With economic and scientific expertise, innovation is key to meeting people and creating a stimulating environment for visitors. Take advantage of our expertise to guarantee the success of your association's event.

## KNOWLEDGE AND RESEARCH HUB

With 71 innovation clusters or centres of excellence and backed by its strong industrial tradition and internationally renowned expertise, France is a leading player in a number of key economic sectors, multiplying its innovation hubs.

Life sciences, biotechnology, healthcare, information technology, environment, automotive, aerospace, mechanical industries, logistics, chemicals, energy and clean tech companies, agri-food... France's designated clusters bring together – in one geographical location – leading businesses, universities and research institutions that will work together on cutting-edge Research and Design projects.

With such dynamism and expertise available to associations, France intends to remain one of the top congress destinations.

## WELL-SUPPORTED ECONOMICAL, INDUSTRIAL AND TECH DYNAMISM

Because start-ups support various innovation sectors, such as health technologies, green technologies, biotechnologies and finance, and because they also explore new products

and services, the successful ones quickly become companies with international perspectives. Consequently, in order to help their growth, to generate economical value and to create new jobs, the French government decided to launch the French Tech Initiative with the ambition of making France one of the "Big Start-up Nations". This initiative led to the opening of the Station F campus in 2017, the world's largest start-up campus.

## READINESS FOR THE FUTURE

As the Fourth Industrial Revolution gathers momentum, decision-makers are confronted with a new set of uncertainties regarding the future. The Fourth Industrial Revolution is characterised by a range of new technologies that are fusing the physical, digital and biological worlds, impacting all disciplines, economies and industries. Rapidly emerging technologies are spurring the development of new production techniques, business models and value chains that will fundamentally transform global production. Both the speed and scope of change add a layer of complexity to the already challenging task of developing and implementing strategies that promote growth. France is already aware of the factors and conditions required in order to be ready for the future. Whether in terms of structure or means of production, France ranks 14<sup>th</sup> among the countries most likely to embrace the 4<sup>th</sup> industrial revolution. # ANGERS LOIRE VALLEY

## THE WINNING ALLIANCE FOR SUCCESSFUL MEETINGS

Located in the Loire Valley, a UNESCO world heritage site in Western France, Angers is ideally located less than 90 min from Paris and only 2h20 by direct train from Paris Charles-de-Gaulle international airport.

You will find the quality of Angers' welcome and its attractive lifestyle very appealing.

Sporting the official label of "City of Art and History", Angers will amaze visitors with its vibrancy, its French lifestyle and its many

unique and prestigious sites: Angers Castle, a 13<sup>th</sup> century fortress housing the world's largest medieval Tapestry, the outstanding David d'Angers sculpture gallery or the exceptional Jean Lurçat museum.

Angers is also a major destination for professional events offering high quality venues (a new Convention Center in 2019) and tailor-made services provided by the Angers Convention Bureau.

## ■ HUB OF KNOWLEDGE AND CENTERS OF EXCELLENCE

Angers is a major centre of innovation with many excellent organisations. In the plant-industry, VEGEPOLYS brings together more than 365 innovative projects in an international competitiveness cluster. Angers organizes the now world famous annual SIVAL (the International Salon of Plant Production and Technique). The city has also been chosen to host, in 2022, the 31<sup>st</sup> International Horticultural Congress. What's more, Angers is at the cutting edge of technology in the fields of Healthcare and Biotechnology, with a University Hospital, a national medical simulation centre, and a number of major pharmaceutical industries. In addition, the "green city" benefits from recognized skills in the "Silver Economy", offering services and expertise to an aging population.

## ■ ANGERS: ELECTRONICS VALLEY

Angers has a number of digital & electronics industries, and recognized expertise in IoT (the Internet of Things). The city is THE original electronics production centre of Europe, and hosts 4 leading European electronics manufacturing companies which figure among the top 50 worldwide (All Circuits, Asteelflash, Eolane and Lacroix). With the endorsement of the label "French Tech" Angers and the inauguration in 2015 by the French President of the very first "Cit  de l'Objet Connect " in France, Angers has consolidated its status as THE IoT and manufacturing hub of western France.

# BIARRITZ PAYS BASQUE

## BIARRITZ. DO IT NOW.

Biarritz is an exceptional destination located in the heart of the Basque Country, a land blessed with its mountains, beaches, forests and ocean, right at a cultural crossroads. With two airports (Biarritz Airport conveniently near the city-center and only twenty minutes from San Sebastian Airport) Biarritz is connected to most of the main European cities and capitals.

Functional infrastructures, exciting and original incentives activities, easy connections to the main cities in France and in Europe, a professional team to assist you... these are only few of the reasons why Biarritz hosts many significant cosmopolitan congresses and events every year.

So much more than promises, Biarritz provides the momentum to bring out the best in you.

## ■ BIARRITZ. GET INSPIRED !

Biarritz and the Basque Country Inspire you! Here, tradition and innovation merge into one, as ancient Basque know how and creative new spirits come together to reinvent and transform “made in Basque” products.

Biarritz has organized its economic development into fields of competence which are as attractive as they are competitive: commerce, tourism, ocean, high end information and imaging technology, aeronautics, board sports. The town’s vitality is supported by a pertinent infrastructure network, the different modules of which complement each other perfectly and have been thought out especially for organizing seminars, trade shows, events and congresses of any size.

Recently Biarritz has also launched the project Ocean Start, a technology park dedicated to the Economy of the Ocean.

## ■ FROM BIARRITZ TO PAU, THE CRADLE OF FRENCH GOLF

Biarritz Destination Golf is one of the most beautiful golfing destinations in Europe. Designated as the only state contract of Golf, Biarritz Destination Golf was born in 2015 and has been recently renewed for three years.

European golfers find an outstanding choice of golf courses and a climate suited to all-year-round play in the Basque Country, the Landes and in Béarn Pyrénées. These golf courses have it all. Perfect your swing in the atmosphere of South-West France, between the Atlantic Ocean, pine forests and the Pyrenees mountains.

# BORDEAUX

## WORLD CAPITAL OF WINE & ICONIC CONGRESS CITY

Chosen as Lonely Planet's most attractive city in 2017, over the course of the last ten years, Bordeaux has transformed itself, and revealed its rich personality. Boasting exceptional classical and modern architecture, and surrounded by the most famous vineyards in the world, it is a perfect symbol of the French "Art of Living". Bordeaux also has a lively cultural scene, with a new generation of young

artists and musicians who have not hesitated to reinvent and create alternative versions of the "Port of the Moon" as it is fondly known – in reference to the crescent-shape followed by the Garonne river as it wends its way through the city. Located in an outstanding region, Bordeaux offers a variety of landscapes from the vineyards to the Atlantic Coast and the Bassin d'Arcachon.

## ■ BORDEAUX IS A POWERFUL MAGNET!

It's an attractive metropolis for its lifestyle and for businesses. As a city with a booming industry and hotbed of innovation, start-ups, research laboratories for new themes, a University of Excellence and grandes écoles, Bordeaux has become a prominent host of international congresses. Bordeaux focuses its economic development on research, technology and innovation. With 11,600 researchers, 106,000 students, 17 advanced engineering schools, 110 research units at the University of Bordeaux and more than 15 competitiveness clusters, Bordeaux is the economic driving force of the Nouvelle Aquitaine particularly in Aeronautic, Optic&Laser, Wood industry, Geosciences, Health ICT, Neurosciences...

According to the organisers, just the mention of "Bordeaux" leads to a 5-15% increase in the number of participants; Bordeaux truly is MAGNETIC!

## ■ BORDEAUX, HOTBED OF INNOVATION

A prime example, in 2017 the wood industry of Bordeaux with its canadian and japenese partners have created the first world congress on high-rise wood buildings. "Wood Rise Congress" took place in September in Bordeaux and welcomed more than 1,500 delegates. At the heart of sustainable cities and the ecological transition, WOODRISE is aimed at all those involved in the construction of mid-rise and high-rise buildings, who take wood into consideration as an essential material for sustainable cities. The 2<sup>nd</sup> edition will take place in 2019 in Japan.

## ■ CANNES CREATIVE CITY

Cannes is a true and inspiring destination for the world's most influential players and decision makers in the media, communication, creativity and entertainment fields.

For over 70 years, Cannes has demonstrated its power of attraction and has been welcoming worldwide prestigious events with the Cannes Festival since 1946, Cannes Lions since 1954, MIPTV since 1964 and MIPCOM since 1985.

In April 2018, Cannes launches a new promising event: Canneseries, the international festival of TV series. This new event is in total synergy with Cannes'ambition to become the capital of creative writing. To reach such an objective, Cannes, the Côte d'Azur University (UCA), the cinema school of Berlin DFFB, Vivendi Group and CANAL+ have launched a unique program: the Canneseries Institute. Tomorrow's TV series will be written in Cannes!

## ■ CANNES, AN INNOVATION SHOWCASE

Built, right from the start, upon the dynamism of its aerospace activity along with Thales Alenia Space, Cannes invests in innovation and falls fully within the Provence-Alpes-Côte d'Azur region, with 10 competitiveness clusters. The "Cluster SAFE", initiated in Cannes in December 2015, aims at supporting both innovation and implementation of research and development collaborative projects in overall security business.

Main B2B events in this sector do already trust Cannes: Trustech, IT Meetings, Security Meetings.

# CHAMONIX MONT-BLANC ALPS-MONT BLANC

## CHAMONIX, A BREATHTAKING CONGRESS DESTINATION

At the crossroads with France, Italy and Switzerland, Chamonix Mont-Blanc is an international world known destination, highly appreciated by conference participants for its authentic setting. World capital of skiing and mountaineering, home of several international sport events, Chamonix is a dynamic town that lives all year-round and welcomes thousands of visitors every year. The Chamonix Valley offers a large choice of hotels with meetings facilities,

restaurants, shops, spas, cafés and bars. And there are activities for everyone: sightseeing, cultural visits, sport activities for beginners or those who wish to challenge themselves. Professional mountaineers organize special events to create team feelings. Unique is also the conference center, LE MAJESTIC. Located in the center and only 5mn away from most of the hotels, it counts 9 fully equipped rooms for meetings from 10 to 400 people.

## ■ AN OPEN-AIR LABORATORY FOR SCIENTISTS

Much more than a naturally magnificent playground, the Chamonix Valley is also an extraordinary open air laboratory. Chamonix has been closely linked with the world of science since the 18<sup>th</sup> Century: first scientific expeditions, construction of high altitude observatories, the theory of Pleistocene glaciation...numerous fields of research are still attracting scientists from all over the world. Some centres of excellence are established in the valley: The Ecole de Physique in Les Houches created in 1951, the Ifremont (teaching and research institute in mountain medicine), the centre of expertise for sports medicine and biomedical research of ENSA (the national ski & mountaineering school), the Research Centre for Alpine eco-systems (CREA). The Chamonix Mont-Blanc Valley has been committed to eco-responsible tourism, which aims to limit the impact of tourism on a unique and fragile natural environment.

## ■ THE WORLD CAPITAL OF THE MOUNTAIN

The conquest of Mont Blanc summit in 1786 contributes to demystifying the mountains and open this exceptional natural setting on new opportunities. Chamonix is known as the World capital of skiing and mountaineering, headquarters of the French National Ski & Mountaineering School, birthplace of the trail running, home for global sport events: Ski World Cup, Ultra Trail du Mont-Blanc, World Climbing Cup. This unavoidable place of mountain sports is consequently a reference for mountain rescue expertise, organising events on this matter. Chamonix is also hosting outdoor industry (textile and equipment).

# DEAUVILLE NORMANDY

## AN IDEAL PLACE TO ENERGIZE YOUR CONGRESS!

Normandy, France's longest maritime coastline and 4<sup>th</sup> biggest short-stay tourism destination in France, has an exceptional cultural heritage. With 2,000 bedrooms within a range of two kilometres, a conference centre – the "Centre International de Deauville", an airport just 8 km away, an area of welcoming proportions, Deauville, located 2 hours from Paris, is the obvious choice of towns in Normandy, capable of hosting festival-goers, decision-makers,

entrepreneurs, Heads of State and Government officials. Its cutting-edge tourist facilities make it a site of expertise and professionalism and a fertile breeding ground for projects. Its constant commitment to the development of its attractiveness, of its environment-friendliness, the promotion and the conservation of its incomparable heritage and its accessibility by all means of transport, make it a choice destination for tourists. It is unique in its region.

## ■ DEAUVILLE: RICH EXPERIENCES IN A PERFECT SITUATION BETWEEN THE SEA AND THE COUNTRYSIDE

The coast and the Deauville area (11 municipalities) benefit from the dynamism and the attractiveness of the Seine waterway. The economy is turned towards the international stage: 6 world-renowned centres of competitiveness: Information and communication technologies, cosmetic, equine, the agri-food sector, logistics... Deauville welcomes more than 40 large-scale sporting and cultural events a year. Therefore this destination is ideal for professional events.

## ■ DEAUVILLE: A PASSION FOR HORSES

Since Deauville's creation in the 19<sup>th</sup> century, tourism has remained the main pillar of the local economy. Horses, thanks to the size and importance of the equine industry and the many related sporting events, constitute without doubt the town's second biggest economic cluster. Horse races, horse sales, riding, large equestrian competitions, Deauville revolves around horses all year long with its big meetings. A whole universe to be discovered at the heart of this amazing town.

# DIJON / BURGUNDY

## INTERNATIONAL CITY OF GASTRONOMY AND WINE, A PERFECT CONGRESS PLACE

Gentle, alluring Dijon, one of the 13 regional capitals of France, is reaping the benefits of its double recognition by UNESCO. Boasting one of the largest historical preservation sectors in the country, Dijon is fully integrated in the perimeters of the Climats of the vineyards of Burgundy and has one of the largest historical monuments sectors in France, both inscribed as a UNESCO world heritage since

July 2015. Coupled with this achievement, the International City of Gastronomy and wine, expected to open in 2019, will naturally promote the "French Meal" also entlisted as UNESCO Intangible World Heritage since November 2010. Dijon will play a key role in the major, worldwide program regarding taste, nutrition, health, gastronomy, wine, the art of good living and culture.

## ■ DIJON, CITY OF THE DUKES OF BURGUNDY

Searching for the perfect destination? Look no further than Dijon, perfectly situated, attractive and constantly evolving. A city famous for its gastronomy and wine, it is home to the world's first Institut specialising in vineyard and wine studies, food research and health industries. It is also home to 10 important "grandes écoles" including the Burgundy School of Business, Sciences Po, and the National Conservatory of Music, the Ensa Art school and of course the University of Burgundy with over 3 4000 students. Dijon is an important economic force for food industry with excellent research centres like INRA and Agrosup, including 29 research laboratories with over 1,500 researchers. Dijon is proud to be second in France in terms of employment offer and third in terms of where students choose to study. Dijon has invested in its architecture, especially the metamorphosis of the Fine art Museum and its modern art center and auditorium are recognised worldwide Reaching for the stars. Touch the famous Owl of Notre Dame : it brings good luck...

## ■ DIJON, A HERITAGE OF HUMANITY

The historical center, as much a part of UNESCO world heritage as the "climats" of the Burgundy vineyards... The 97 hectares and 1,247 vineyard plots are famous for their excellent wines and welcome visitors and buyers from around the world all year round. Gastronomy is equally important and is developing fast. In fact, the International Food and Wine Centre will open in 2019, consisting of 6.5 hectares, with 1,700 sqm of exhibition space dedicated to the gastronomic meal , hotels, shops, a cookery school, wine school and two cinemas. A large scale urban project.

# LILLE HAUTS-DE-FRANCE

## UNIQUE, TRENDY, SURPRISING DESTINATION!

The French touch at the crossroads of 3 major European capital cities: Brussels, Paris and London. Lille, capital of the Region, is proud of its festive traditions and its gastronomy. Flemish, Burgundian and then Spanish before becoming finally French, Lille has an outstanding architectural wealth. A trading city since medieval times, a citadel under Louis XIV, a hive of industry during the 19<sup>th</sup>

century and a city of ambition during the 20<sup>th</sup> century. Lille Metropole offers a blend of faces of the past and of the future. Lille Metropole was recently named World Capital of design in 2020.

Surprising, unexpected, visionary, creative, but also bold, Lille enthusiasms and captivates its guests with its contrasts. Lille, an European Metropolis on a human scale to welcome you.

# LYON

## WORLD FOOD CAPITAL & FRANCE'S 2<sup>ND</sup> CONGRESS CITY

A UNESCO World heritage City with 2000 years of history combining stunning architecture, from Roman remains to bold contemporary creations. Lyon has a wide range of cuisine from the traditional Bouchons to the Gourmet delights of award-winning restaurants. The City is home to the most starred street in the whole country, the birth and workplace of the mythical chef Paul Bocuse and his record

breaking 3 star restaurant (150 stars over 50 years). A truly authentic vibrant French city, Lyon is ideally located in the heart of Europe, easy accessible by train, plane or road. Close to the French Alps at the doorstep of the south of France, the city lies in an area surrounded by the wine producing regions of Burgundy, Beaujolais and Côtes du Rhone.

## ■ LYON, THE STRENGTH OF A DIVERSIFIED ECONOMY

Lyon, France's 2<sup>nd</sup> largest city after Paris with a population of 1,348 million in Greater Lyon, remains France's n°2 economic hub and has many advantages that make it a real economic power. The city currently has one of the highest GDPs in Europe and a trade surplus, due to its dynamic and diversified industrial network. Lyon supports innovation and excellence by funding research in the context of "competitiveness clusters".

These include: biotechnologies (LYONBIOPOLE), chemistry/environment (AXELERA), urban public transport (LYON URBAN TRUCK AND BUS), digital entertainment (IMAGINOVE), textiles and clothing (TECHTERA, DIGITAL LIGUE, ETI numériques).

► Leading international companies: Sanofi Pasteur, Biomérieux, April, GL events, Renault Trucks, Arkema, Cegid, Electronics Arts, Adecco, Rhodia, Seb...

## ■ LYON, AT THE CUTTING EDGE OF BIOTECHNOLOGIES AND HEALTH

Lyon's BIOPOLE cluster has a worldwide reputation: infectious diseases, oncology, neurosciences, medical technologies and nutrition. Pioneer in the public health and scientific research sectors, Lyon is one of the leading centers for life sciences, both in France and abroad.

With its rich ecosystem, founded on its expertise in immuno-infectiology, oncology and neurosciences, the life sciences sector contributes immensely to the city's success as an international medical congress destination.

# MARTINIQUE

## MEET IN MARTINIQUE, SO FRENCH, SO CARIBBEAN

In Martinique, you'll find a unique combination of French savoir faire and creole joie de vivre. The currency is the Euro, the flag and the official language are French, but Martinique's character, cuisine, musical heritage, art, culture, common language, and identity are of a distinctly Afro-Caribbean. It is this special combination of modern world conveniences,

pristine nature, and rich heritage that has earned for Martinique several notable distinctions in recent years. In 2018, Martinique is highlighted in the Caribbean segment of the New York Time's "52 Places to go in 2018". With its natural beauty, easy access, new and top notch events, Martinique is truly magnifique!

## ■ MARTINIQUE, SO MUCH MORE THAN AND ISLAND

Martinique benefits from obvious assets that will help its continuing development. Industrial factories mostly for small and mid-sized enterprises, agro-business and chemical sectors have been developed over the last 25 years. Martinique is a key research center for technology transfer, making this sector dynamic while following political processes to achieve better international cooperation. The island is a natural laboratory characterized by: its tropical climate, its marine ecosystem, its geological and its rich biodiversity with numerous endemic species. Martinique offers real assets to promote research: stable politics, quality scientific equipment, European status within the euro zone, a well-built infrastructure including schools, public health, and technical opportunities.

## ■ MARTINIQUE, LAND OF AOC RUM

The "Rhum Agricole" from Martinique, today labeled with a protected designation of origin (AOC, Appellation d'Origine Contrôlée) has always been a symbol of the island's culture, "savoir-faire" and traditions. Aged rum is a luxury product which sits for a minimum of 3 years in oak casks and there are now rums with labels, rum aged over various lengths of time, and even rum produced during special years that are known by experts. This year, Martinique won 41 of these medals, mainly for its AOC rums at Paris International Agricultural Show 2018.

## ■ THE KNOWLEDGE HUBS OF THE PRINCIPALITY

It's easy to think of Monaco as just a playground for the idle rich. But the Principality is like a swan. Above the waterline it is serene, stylish and spectacular. But beneath the surface it is striving hard to maintain its position and steer a new and successful course to an exciting future. The result has enhanced its reputation with developments in key sectors of science, industry and sustainability.

Monaco is a dynamic, competitive and innovative community possessing real knowledge hubs and experts in these sectors. It is a tiny territory of just two square kilometres packed with the culture and entertainment you would expect but also offering a surprising entrepreneurial spirit and determination to become THE place to meet, live and invest because of the expertise that resides in the business and academic communities.

## ■ A SCIENTIFIC COMMUNITY OF WORLD RENOWN

Monaco healthcare sector is renowned for the quality of its professionals and its facilities in several specialist fields. It is one of the pillars of Monegasque industry.

Every year, the Principality hosts more than 500 professional events, including numerous conferences and associations, primarily in science and medicine.

# NANTES

## THE LAND OF THE BOLD

A fast-growing city on the French Atlantic coast, Nantes with its booming economy and thriving cultural scene is one of the new up and coming European destinations.

The audacious city has become a favourite amongst business meetings organisers.

From congresses to corporate meetings, Nantes offers a wide selection of imaginative and

sustainable solutions for every kind of events. Nantes is the birth place of Jules Verne. Its audacity, imagination make it a highly attractive destination for creative event organisers.

This no surprise, The Sunday Times once described Nantes as "the loopyest city in France!"...

# NICE CÔTE D'AZUR

## DRIVE FOR EXCELLENCE IN HOSTING CONFERENCES!

After 200 years of excellence, Nice has embarked on a new cycle, a new dynamic of change, based on an economic and natural environment, an effective infrastructure and growth-generating projects. By doing so, Nice is reaffirming its roots in the modern world and its ability to host all kinds of events in a safe and eco-friendly setting.

Nice is the capital of cutting-edge technology

environments with an outstanding centre for scientific and medical research, and a renowned university.

The city's attractions lie in its geographical location and in its cultural heritage, as well as in its infrastructures and ergonomics, such that visitors have access to a comprehensive range of facilities. Always managing to keep the charm of authenticity and of a certain lifestyle.

## ■ NICE A HUB OF EXCELLENCE!

The convergence of ICTs and eco-technologies creates a favourable field of action on the Côte d'Azur. The metropolis is inviting research labs and companies at the forefront of innovation to invent a smart and sustainable city. The "Eco-Vallée" is located in the immediate vicinity of the Nice Côte d'Azur Airport. A technology park in the making dedicated to eco-technologies, it's a testing ground as well as a reception site for leading companies and a hotbed of innovation and start-ups. Green building, smart grids, sustainable mobility, and renewable energies are all promising sectors on which the high-tech clusters are positioning themselves, e.g. Capénergies, Solutions Communicantes Sécurisées (SCS), and SAFE, and they are finding a concentration of expertise and experimentation on the Côte d'Azur.

## ■ CUTTING-EDGE MEDICAL RESEARCH

The University Hospital of Nice (CHU) is very active in research and innovation. "Pasteur 2" the largest hospital construction in France and 27 Delvalle (start-ups incubator dedicated to e-health), constitute the foundation of the future "Paillon 2020 Living Lab".

The healthcare sector in Nice also includes the Face and Neck Institute – an important centre for oncology and cervico-facial surgery – and a new building dedicated to neurology, namely Alzheimer's disease, the Claude Pompidou foundation.

# ORLÉANS MÉTROPOLE LOIRE VALLEY

## HISTORICALLY A DESTINATION FOR SUCCESS

Ideally located 1 hour by train from Paris and the Orly International Airport, Orléans Métropole is undoubtedly an ideal congress destination. The city of Loire and Joan of Arc, listed in the UNESCO world heritage and completely renovated since 2000, offers a real quality of life and many MICE venues: a nice way to ally work and conviviality.

At the meeting point of the French Tech Loire Valley and several scientific and industrial competitiveness clusters, the capital of the Centre-Val-de-Loire Region is definitely full of assets for great business events.

## ■ A TERRITORY OF SCIENTIFIC AND ECONOMIC EXCELLENCY

Attractive and vibrant, Orléans Métropole concentrates on its territory four scientific and industrial competitiveness poles: the beating heart of the the Cosmetic Valley, the Elastopole specialising in rubber and polymer, S2E2 (Electric Energy Sciences and Sytems) and the DREAM pole working on the sustainability of water ressources. Thanks to its proximity with Paris and its central position as a highway hub, Orléans Métropole is also well-known for being a great platform for logistics.

Since 2016, Orléans Métropole has a new Lab'O structure, dedicated to the digital field and the young innovating companies. It is the main office of Nekoe, the first French cluster of innovation through services.

20,000 students, 5,600 researchers and 88 laboratories: Orléans Métropole's University definitely stimulates the Region Centre's excellence centres.

## ■ THE COSMETIC VALLEY, A KEY SECTOR IN ORLÉANS MÉTROPOLE'S ECONOMY

The Cosmetic Valley gathers more than 500 businesses in the sector of Perfumery and Cosmetics, and truly boosts the international influence and exports of the luxury products labelled "Made in France".

Prestigious companies are located in Orleans: Dior, Gemey, Shiseido, Orlane and Caudalie for instance.

## FEEL THE ENERGY!

Olympic city, business city, city of culture... Paris is constantly reinventing itself to offer visitors the very best experience. The destination offers you a wide choice of products and services to add dynamism to your events and make them unique. Whether you want to organize an upscale incentive or a large convention, a conference for researchers or a sales meeting, a trade show or a private tour, Paris will draw together all its expertise

and surpass your expectations.

To gear up for the 2024 Olympics and retain its ranking as a world leader in the MICE industry, the destination is modernizing its airports and developing new urban transport solutions. It also has a brand new congress centre, the biggest in Europe, designed to host major international events. Renovations and revamps are underway in hotels and 12,000 additional guest rooms will be created by 2020.

## ■ RENNES A HUB OF EXCELLENCE

Rennes is not just one of the best places to live, it is also one of the most innovative. French Tech certified, the Breton capital demonstrates ingenuity in a host of fields. A pioneer in cutting-edge technology, its expertise expands to automotive industry, agri-food, sustainable development, new modes of transport, medicine and research. This is where research really takes shape, in fields ranging from digital technology, health, agri-food, the environment and automated production. Rennes is a true hub of excellence with four of Brittany's certified business clusters, with the Images et Réseaux cluster and Mer Bretagne cluster having international scope. The Valorial cluster focuses on foods for the future, and the ID4car cluster drives innovation in the automotive industry.

## ■ CYBERSECURITY: A TRADITION OF EXCELLENCE

Historically naval territory, Brittany is one of the major players in national defence. Building on high-tech expertise, a network of over 500 companies and research centres operates around these greatly sensitive issues. The excellence of the cyberdefence cluster. In the fight against cybercrime, Brittany is leading the race. There is a veritable network dedicated to research and development, but also to education and training that has developed in the region, earning it a centre of excellence status awarded by the Ministry of Defence.

# TOURS / LOIRE VALLEY

## TOURS, A ROYAL EXPERIENCE IN THE LOIRE VALLEY

Tours, the original home of the French language and the "art de vivre" is a land of harmony and proportion, graced by two major rivers. Inscribed as a world heritage site, with brands like "Chateaux de la Loire" and the "Loire à Vélo", Val de Loire is one of the most touristic destinations in France. This "International City

of Gastronomy" is also famous for its "Place Plumereau", one of the most beautiful squares in France according to the Lonely Planet guide. Today Tours is a modern, lively and dynamic centre, with a thriving university, cultivating economic development: still young at heart with many cultural and sports activities.

## ■ TOURS: COMPETITIVE

With the position of its cutting-edge companies on a national and international scale, a leadership in people care, health, digital technology and energy, Tours develops a competitive economic fabric on a territory which has set up many successful partnerships.

In order to strengthen the companies located here and attract entrepreneurs, the metropolis of Tours is active in supporting research and promote innovative initiatives. To achieve this goal, the metropolis has built a strategy around new technologies, research labs and competitiveness clusters.

**Our competitiveness clusters summed up in a few figures:**

- ▶ 4 competitiveness clusters
- ▶ 70 public-private research labs
- ▶ 30 training centres
- ▶ 5000 companies

## ■ TOURS: INNOVATION

Tours and its Metropolis combine gentle lifestyle and innovation. Today, this rich and varied economic ecosystem in central-western France is booming thanks to the development of promising sectors such as micro-electronics, pharmaceuticals, cosmetics as well as digital technology.

A framework of innovative and diversified SMB work now hand in hand with major international groups thanks to the setting-up of 140 laboratories and 1,500 researchers within the university pole and 5 joint public-private research centres.
